

## How much time do I have to submit an MA application for my biocidal product?

Written by DPR Biocides - Anses - Last Updated Wednesday, 29 June 2016 18:06

---

An MA application for a biocidal product should be submitted before the deadline listed in the approval regulation for the active substance it contains (general case of biocidal product containing only one active substance). You can find a calendar of these dates in the Regulations section.
