

- Presentation of the meeting "Information and exchanges on authorisations of biocidal products" of 01.09.2016 (documents are available only in French):

1. [General ANSES presentation](#) 
2. [Missions of the French ministry of environment](#) 
3. [Transfer of the delivery of biocidal products authorisations](#) 
4. [Authorisations for biocidal products : terms and conditions](#) 

- [List of product types \(PT\)](#) 

*Version of 11.22.2017*

- [List of French fees according to the application type](#) 

*Version of 13.06.2014*

- [List of documents to be submitted per application type](#) 

*Version of 18.02.2016* - This list summarises the documents required in France for the most common types of application. The documents can be submitted as soon as the application is made or will be requested during the validation phase (after payment).

- [Table of approved active substances](#) 

*Version of 17.11.2021*- This document gives, for each approved AS/PT combination, the deadlines for submitting applications.

- [Summary table of MA procedures](#) 

*Version of 07.01.2015* - This document summarises the key characteristics of the most common types of application. Document produced by the Ministry of the Environment.

- [List of cases in the R4BP](#) 

*Version of 18.02.2016* - This document, extracted from an ECHA presentation, contains a non-exhaustive list of all the different possible cases identified in the R4BP3.

- [List of active substances](#) 

ECHA provides access, via a search engine, to all the biocidal active substances and their status. This information is updated regularly. The regulatory texts are authentic.

- [List of authorised products](#) 

ECHA regularly updates the list of products authorised in all European countries.

- [List of AS suppliers](#) 

In accordance with Article 95 of the BPR, ECHA makes available the list of suppliers of active substances according to the product types. This list is updated regularly.
